## Oakmeadow Surgery Newsletter

**We would like to introduce our new Pharmacist Preeti**

I started working at Oakmeadow surgery earlier this year and I have worked in GP practice for 2 years. Prior to this I worked in community pharmacy for 10 years since qualifying as a pharmacist.

This role includes doing medication reviews with patients, reauthorising repeat prescriptions, ensuring patients receive appropriate monitoring with blood tests depending on the medications they are taking. I am also involved in doing blood pressure and cholesterol reviews with patients, reconciling clinic letters and hospital discharge letters so any medication changes are made appropriately. I help with medication queries from patients and prescription queries from pharmacies as well as finding suitable alternatives when medications are out of stock. I like being able to help patients improve their health outcomes through medications as well as diet and lifestyle changes.

Outside of work I enjoy spending time with my family and friends. I also like to play piano, watch movies, do some yoga, read a book and spend time outdoors in nature.

*Proud to be providing NHS services.*
